CITIZEN COMMENTS

Charles Anderson, 7 Meadowbrook Country Club Estates, addressed the Board, stating he has lived in the area for 30+ years. He also stated this has been a pleasant experience and complimented the Mayor and Aldermen for what they do. He asked the Board to do whatever they can to stop the new cell tower.

Bob Skebo, representing Claymont Co. which owns Claymont Center, addressed the Board. He stated there is a reciprocal agreement with the neighboring property, where the tower is proposed to be installed. This request was denied on August 7, 2020 per the agreement. The request was to install the tower in the back of property and it was felt it was still intrusive so they feel it was reasonable to deny the request per the agreement. He stated he brought copies of emails/agreement; these were given to the City Clerk and then, the City Attorney.

Bob Biribin, 249 Geremma, addressed the Board, stating he has been a Ballwin resident for over 20 years and a Ballwin business owner (the Wolf Café) for over nine years. He thanked the Board for the support they have always given. His business has always focused on clean food, drink, water, etc. He stated customers have expressed concerns over the cell tower and, not only will it be a terrible sight, it's not healthy. He also feels the cell tower will impact his business.

Ken Dubinsky, 3 Meadowbrook Country Club Estates, addressed the Board and stated he was appreciative for the opportunity to speak. He is a nine-year resident of the City, but if the cell tower goes in, he and his family will move. He cited several reasons for denying the tower. Some of those are that the tower will be a huge eyesore, it will adversely affect the community, negatively affect health and lower property values.

Amy Weinstein, 3 Meadowbrook Country Club Estates, addressed the Board. She is Ken Dubinsky's wife. She created visuals of how the tower might look and shared those with the Board. She stated neighbors and businesses were not aware of the tower until the previous week and no one wants it. She asked the Board that, if they could not deny this permit tonight, could they please table it so more research can be done and possibly a more suitable location could be found.

Dawne Luleff, 5 Meadowbrook Country Club Estates, addressed the Board, stating this cell tower would obstruct the view of what is currently a clean landscape and be a hindrance. She stated she has a child with health concerns and is not willing to risk her child's health further for better cell service. She stated that approving this permit makes Ballwin not for the people, but for profit and will move if the tower goes up.

Steve Weinstein, attorney and brother of previous speaker, Amy Weinstein, addressed the board and stated he has read the Uniform Wireless Communications Infrastructure Deployment Act and does not believe it has taken away the City's power to regulate cell companies.

Michael Jones, 828 Woodruff, addressed the Board from a health standpoint. He is concerned with how this tower will affect people medically.

Allen Rutledge, Meadowbrook Country Club Estates, asked the Board to look at the tower that is now in Vlasis Park and then imagine this in their backyards.

LEGISLATION

Bill 4067 - AN ORDINANCE GRANTING A SPECIAL USE EXCEPTION TO NETWORK REAL ESTATE ON BEHALF OF AT&T MOBILITY FOR A COMMUNICATIONS TOWER AT 15407 CLAYTON ROAD.

Alderman Utt and Alderman Leahy will be abstaining from any voting on this Bill. Alderman Bullington asked Mayor Pogue if, in the absence of Alderman Kerlagon, this should be held over for the next meeting. Mayor Pogue stated the Board will still hold discussion of the Bill.

In discussion of Bill 4067:

Mayor Pogue stated the Uniform Wireless Communications Infrastructure Deployment Act was passed in 2014. While the Board is sympathetic to concerns, there are certain items the Board has no power to control or regulate due to this law. Mayor Pogue then referred to State Statute 67.5094, specifically items 2, 3, 5, 6, 7, 8 and 16. He also explained further that, under these items, we cannot deny a permit if the petitioner doesn't agree to collocate or look for a different location; we have no authority to ask them to put up a small cell deployment system instead of a large tower and we cannot deny a permit based on health concerns. He also stated that when this bill was passed, it took away local control to work with cell companies. The Lafayette Area Mayors Group held a meeting with state representatives and senators and asked why certain sections of local control were stripped. When shown a copy of the bill, one representative stated she did not know some of the sections were in the bill. Lobbyists have stripped local control. Mayor Pogue also shared that, under State Statute 67.5096, Section 5, we have 120 days from submission to approve or deny the permit. No action means this is automatically approved.

Mayor Pogue stated that during his time as an Alderman and as Mayor, whenever there's been a petition, the Board has done everything to make things as acceptable as possible to the community. They recognize there are health concerns, but their hands are tied. Mayor Pogue asked City Attorney Bob Jones if the statutes are still in effect; City Attorney Jones stated they are and further explained that these have only been interpreted once and this was via a court case involving University City. There are significant limitations on what a city can do; when a city makes a mistake and applies a wrong standard, it is a violation of the Missouri Citing Act. Also, there are Federal regulations to meet in addition to state laws. Alderman Roach had a question regarding Bill 4067 and which part of 67.5094 prohibits someone from finding that the petition doesn't meet standards. City Attorney

Jones responded that special use exception conditions need to be harmonized with both state and federal laws. Alderman Roach stated then that he is not considering based on those conditions, but only considering the petition based on conditions stated in the Special Use Exception bill.

Alderman Fleming asked Bob Skebo about Claymont Co. denying another location. Mr. Skebo stated they denied their request for a location close to Claymont Center. There was also discussion of the reciprocity agreement; Alderman Fleming stated our City Attorney has not had the opportunity to review this at this time.

Mayor Pogue asked the petitioner to come forward. Matt Schlichter addressed the Board, stating they understand resident concerns, but also stated this is not a new tower that is being proposed. It is replacing a site that has been there for over 25 years. It will be moved a couple hundred feet, but is a replacement. The pole will have space for an additional carrier as well. They are taking something that is temporary and making it permanent. Alderman Stallmann asked if the current site is 5G; Mr. Schlichter replied it is not yet, but they are trying to build for the future. Alderman Fleming stated that the reciprocity agreement was not discussed at the Planning and Zoning meeting that he is aware of; Mayor Pogue confirmed this is the first they have been made aware. City Attorney Jones stated he reviewed the agreement and said it was really an architectural review provision. Alderman Fleming summarized that we are still within the 120 day threshold (October 3), five votes are needed to pass, one alderman is absent and two are abstaining; the City Attorney needs to review the agreement as well.

A motion was made by Alderman Fleming and seconded by Alderman Stallman to table Bill 4067 until the next meeting. A roll call vote was taken with the following results:
