## LEAF COLLECTION

Ballwin Public Works Department will begin its free residential curbside leaf collection program on October 27. Leaves raked sooner can be put in appropriate yard waste bags or containers for pickup on yard waste collection days by the City's contracted waste hauler.

Unlike trash collection, Ballwin cannot guarantee which day of the week your leaves will be collected. This year crews will be collecting leaves Monday through Friday, on both sides of Manchester Road. Crews will begin each day where they ended the day before. Once leaves have

been collected on all streets they will begin another pick up cycle. There will be NO pick up on November 27 and 28 due to the Thanksgiving holiday.

Due to weather conditions and the volume of leaves placed at the curb may NOT be collected on a weekly basis or the same day of the week. This service will also be curtailed due to adverse winter weather conditions.

The final sweep through the City will begin December 1. To assure your leaves are collected during the final week, please rake the leaves to the curb no later than Sunday, November 30.

Please do not park on top of or in front of leaf piles. Leaves that are not accessible cannot be collected until the next cycle through the City. Crews cannot return to missed piles.

To minimize leaves washing into the sewers or becoming saturated during rainfall do not put them in the gutter. For safety reasons, leaves will only be vacuumed from the passenger side of the truck. Drivers are prohibited from driving in the wrong direction towards oncoming traffic. Therefore, leaves cannot be vacuumed from cul-de-sac islands or median islands. Also, leaves cannot be vacuumed if vehicles are parked on or in front of the leaf pile.

As a reminder, this service is only provided to customers of the City's contracted waste hauler. Properties that have a separate contract are excluded from the City's curbside leaf collection. Residents are also reminded that leaves will be picked up by the trash hauler as part of their yard waste collection provided they are put in yard waste bags or separate containers.

For the safety of the workers and the equipment, non-leaf material such as sticks, plants, root balls, metal objects, bricks, logs, animal waste etc. must be kept out of the leaf pile. Piles of leaves with such debris will NOT be collected to avoid injuries and equipment damage which will cause delays. To assure the proper delivery of services please do not block fire hydrants, storm drains, or mailboxes with leaf piles.

Left to right: Jim Krampfer, National Weather Service... Michael Colletti, Catherine Colletti, Matt Montgomery, Katie Montgomery... Mayor Pogue and Chief Schicker

## Deer Hunting Within the City Of Ballwin

The Ballwin Police Department would like to remind residents about City of Ballwin Deer Control Policy and Hunting Regulations in effect in accordance with City of Ballwin Ordinance #12-37 (Codified as Chapter 18, Article V, Sections 18-90 through 18-94).

Deer archery hunting will only be permitted in the City of Ballwin from September 15, 2014 to November 14, 2014, and November 26, 2014 to January 15, 2015 in accordance with Missouri Department of Conservation Regulations. Longbow and compound bow are the only permissible methods to be used. All hunters must be at least 18 years of age.

Hunting is only permitted on private property parcels consisting of one (1) acre or more for which the property owner has given permission for the hunting to occur. Full details of setback requirements, distances, and restrictions can be found in Sec. 18-92 of the full ordinance.

**Property owners who wish to allow hunting must submit to the Ballwin Police Department the following items prior to commencement of hunting:**

- A completed and accurate Notification of Intent to Hunt Form with signatures from all property owners.
- Documentation showing the completion of an archery device hunter safety course as approved or provided by the Missouri Department of Conservation for each hunter
- Proof of coverage by liability policy and/or indemnity bond providing a minimum of \$2,000,000 per occurrence coverage, insuring and/or bonding the property owner and/or hunter for any damage resulting from negligence in the hunting activity of said property.

Property owners are advised to allow at least one (1) business day when submitting the required documents before commencement of hunting on their property. This recommendation is to ensure no hunting activity occurs on a property in violation of ordinance should a submission not meet the requirements set forth in Ballwin Ordinance #12-37. All submissions will be reviewed for deficiencies or disqualifying factors upon receipt.

A packet containing the complete ordinance, guidelines for hunters and property owners, and required forms can be picked up from the Ballwin Police Station during business hours or can be downloaded by visiting [www.ballwin.mo.us/docs/Ballwin\\_Deer\\_Hunting\\_Packet\\_10162012.pdf](http://www.ballwin.mo.us/docs/Ballwin_Deer_Hunting_Packet_10162012.pdf).

All deer harvests must be reported to the Ballwin Police Department within two (2) business days by calling during normal business hours or by delivering written notification to the Chief of Police. Each harvested deer report must include the hunter's name, location of the harvest, and sex of the deer.

**For questions, inquiries, or to report harvests, please contact P.O. Shaun Doerr of the Ballwin Community Affairs Unit at 636-207-2318 or by email [sdoerr@ballwin.mo.us](mailto:sdoerr@ballwin.mo.us).**

## Various Telephone Scams

In numerous locations throughout the country, family members reported receiving telephone calls from a male falsely telling them he is holding their relative captive until they wire a specified amount of money via Western Union or some other money wiring service. The extortion demand is usually several hundred to several thousand dollars. Scammers may keep the family member on the phone for hours threatening to kill or harm their relative, therefore preventing them from contacting the alleged victim.

The following countermeasures should be attempted during a virtual kidnapping:

- Use caution and do not divulge any personal information regarding yourself or any of your family members
- Ask probing questions of the caller and gather as much information about the caller as you can
- Have the caller describe the family member
- Attempt to contact and/or account for relatives
- Do not wire any money

A variation on this scam is a call from a person identifying themselves as police officers saying that they have a family member in custody and they need bond money wired to them. Another is a person identifying themselves as police officers saying that a warrant has been issued for you or a family member and fine payment needs to again be wired.

A very recent incident came from a family who had experienced a recent death. A person identifying themselves as an employee of the coroner's office called the family and requested information on the deceased.

The Ballwin Police Department would like to remind citizens that police departments or other government agencies should never ask for a payment or personal information over the phone. We ask our residents to contact the FBI or local law enforcement if they have any question whether any caller is a valid employee of any type of government agency.

## Parks & Recreation
