Subject: 2013 Deer Season Final Statistics

Bob,

The 2013 Deer Season came to a close on 1/15/2014 and thus ended the hunting period within the City of Ballwin. Below is the final statistics of this year's bow hunting season.

We received 26 intent applications this year totaling 58 individual parcels hunted. Out of the 26 intents, 16 total hunters were authorized, with only 5 not affiliated with Suburban Bow Hunters. A total of 53 deer (7 buck, 46 doe) were harvested from 17 of those parcels by 11 different hunters. The highest number of harvests for any one hunter was 9 deer and only 2 hunters recording harvests who weren't affiliated with Suburban Bow Hunters and they harvested 7 deer.

I will also have available the number of complaints received by residents and hunters in relation to this initiative for the workshop. If you need anything else, please don't hesitate to contact me.

Steve
