

## **Staff Report**

**Subject:** Golf Course Storage Outbuilding

**Department/Program:** Parks and Recreation

**Recommendation:**

To approve A. Eilers Construction for construction of a 16' x 40' outbuilding for \$34,996. This project is part of a larger capital improvement project budgeted at \$250,000 and anticipated to come in well under budget.

**Explanation:**

Two bids were received and only one bid was qualifying. The low bidder Classic Buildings LLC failed to provide the necessary bid documents and meet requirements. Requests For Proposals were sent to eight contractors and bid announcements placed on Reed Construction Data, Prime Vendor, EPlan, Dodge Reports as well as the City's website.

This building will allow for the storage of valuable golf maintenance equipment.
