RE: Radar Unit Rotation Program

DEPARTMENT: Police Department

PROGRAM: Field Operations

RECOMMENDATION: Purchase four (4) Stalker Patrol K-Band Dual Antenna Radar Units through Applied Concepts/Stalker Radar under the Cooperative Procurement Agreement within the Missouri State Police Radar Contract #C114080001, which resulted from the State's competitive RFP process.

Included below is a table outlining the prices for other dual antenna radar units included on the Missouri State Cooperative Procurement Agreement for Police Radar contracts. The prices include set up and delivery fees.

Decatur Electronics Genesis 2 Select Dual K-Band	\$1,775.00
Decatur Electronics Genesis 2 Select Dual KA-Band	\$1,775.00
Decatur Electronics Genesis 2 Select Directional Dual Band	\$1,995.00

I am requesting approval for the purchase of four (4) Stalker Patrol K-Band Dual Antenna Radar Units by the Board of Aldermen. The purchase of the four units will cost **\$1,395.00** each, totaling **\$5580.00**. The State Office of Procurement extended the 2013 Police Radar contract pricing through October 30, 2015 resulting in a per unit price for this radar unit \$500.00 under the price quoted at time of budget preparation. As a result I am requesting the purchase of four units instead of the three, as originally budgeted, to take advantage of the pricing. This expenditure is over budget by **\$80.00** with the additional of the fourth unit.

The order will be placed contingent upon Board approval.

EXPLANATION: The Radar Unit Rotation Program was last implemented in 1996 when the last of the current units were purchased and Stalker Radar was the premier product at that time. The four (4) new Stalker units will replace some instruments purchased in 1986. Cost will be off-set with the sale of the used radar units on GovDeals.
