

Memo

To: Linda Bruer, Director of Parks & Recreation

From: John Hoffman, Deputy Director of Parks

Date: June 17, 2014

RE: Trash/Recycle Units

As you know, we received a grant from the St. Louis County Health Department in the amount of \$8,726 for the purchase of (9) stainless steel combination trash/recycling units. Bids for these units were opened today. Though three bid forms were turned in, only two actually submitted bids. 100% of the cost of these units will be covered by the grant and the balance can be used towards informational signage.

I recommend purchasing the units from the low bidder, Grainger in the amount of \$7,305.03.

If you need any further information, please let me know.
