RE: RAMSEY LANE BRIDGE REPLACEMENT ENGINEERING

DEPARTMENT: PUBLIC WORKS

PROGRAM: PROPERTY SERVICES

RECOMMENDATION: We recommend awarding the contract to CDG Engineers, subject to MoDOT's concurrence

EXPLANATION: On February 12, 2015, an application was submitted to East-West Gateway Council of Governments for federal STP-S (Surface Transportation Program-Suballocated) funding for the replacement of the Ramsey Lane Bridge on Fishpot Creek. The scope of this project includes removing the existing concrete box culvert and constructing a new bridge.

Three engineering firms were interviewed and rated by Assistant City Administrator/City Planner Tom Aiken and myself. The firms interviewed were selected from the MoDOT pre-qualified list of engineering consultants.

Mr. Aiken and I concurred that CDG Engineers exhibited the most detailed understanding of the project elements and services required for this particular project.

Below is a summary of CDG's contract amounts:

	Contract Amount	Budget
2016: Plans and specifications	\$92,000	\$92,000
2018: Services during construction	\$7,500	To be budgeted for 2018.
Total contract amount	\$99,500	

SUBMITTED BY: GARY R. KRAMER, P.E., CITY ENGINEER/DIRECTOR OF PUBLIC WORKS
