

# **CONSENT ITEM**

**RE:** Replacement Server for New World Systems Logos Application which includes: GL, HR/Payroll, and Community Development.

**DEPARTMENT:** Administration

**PROGRAM:** Information Technology

**RECOMMENDATION:** Purchase replacement server from the State Contract vendor, World Wide Technology, in the amount of \$15,507.74.

**EXPLANATION:** This proposed HP Server is a 2016 budgeted system. It will replace the current New World Systems application/database server(s) purchased in late 2011. This proposed HP server meets all of the recommended hardware requirements per the New World Systems Foundation Hardware Team.

This single physical server will utilize virtualization technology and represent multiple virtualized servers that will handle the New World Logos application/database functions including: GL, HR/Payroll, and Community Development. In addition, the proposed server will be equipped with an internal tape drive system which will allow offsite tape backup functionality.
