RE: Golf Course Chemical Bids

---

\$38,500 was budgeted in 2017 for the purpose of purchasing herbicides, insecticides, fungicides, and fertilizers for the golf course. Superintendent Crocker uses a variety of chemicals in varying quantities within each of these categories to treat different conditions based on weather and other circumstances that may occur on the course throughout the season.

A request for proposal was advertised and sealed bids were received from four companies including Greenspro, SiteOne, Helena, and Advance Turf on February 21, 2017. Attached is a schedule of pricing the companies provided for each product requested. It should be noted that not every company can provide every product and some products provided may or may not meet our specifications. In addition, container quantities can vary between suppliers for a particular product; thus the large variances in pricing for some products. Therefore, award to one bidder for all chemicals is not practical.

With that being said, staff is requesting approval to purchase chemicals from the lowest bidder for a particular product that meets the specification for that particular product in the quantity that makes the most sense for that specific use and time of the season. Total chemical purchase for the year will not exceed the budgeted amount of \$38,500.

If you have any questions with regard to the bids or recommendation, please let us know.

## Ballwin Golf Club Chemical Bid 2017

Product	Greenspro	SiteOne	Helena	Advanced Turf
18-3-4	\$201.45	\$33.64	\$50.00	\$36.00
