From Your Mayor

The Summer Season is almost to a close, but there's still one more big celebration left to go! Ballwin Days 2022 is shaping up to be another amazing event.

Join us August 18-22 in Vlasik Park for the 44th annual Ballwin Days! There will be food, rides, games and fun from Thursday through Sunday. More information on

Ballwin Days can be found on pages 8-9.

Many residents are also probably eager to hear the changes in the works for our beloved Vlasik Park, and I think you will be pleased to see what's in store. Vlasik Park is a shining jewel for Ballwin, and we want to make sure we're using the park to the best of our advantage now and in the future.

We're also excited about the upcoming school year. Make sure you take this time to prepare, not just if you have kids. Know the rules of the road when it comes to school buses and bus stops.

And with the fall season around the corner, many family favorite events are back, including the Moonlight Howl, Tons of Trucks and the Craft Beer Festival. And don't forget to check out the Ballwin Golf Course as the weather cools down for a great round of golf!

And as always, please continue to Shop Ballwin First and support all of our local businesses, shops and restaurants.

Ballwin Memorial Day Ceremony

On Monday, May 30, the Ballwin Historical Commission hosted a Memorial Day Ceremony. We honored those who gave the ultimate sacrifice in service for our country. This event took place at the Blue Star Memorial in Vlasis Park and was co-hosted by the Historical Commission, the City of Ballwin, and VFW Post 6274. For more pictures from this ceremony, visit the Ballwin Historical Commission's Facebook page.

Vlasis Park Master Plan

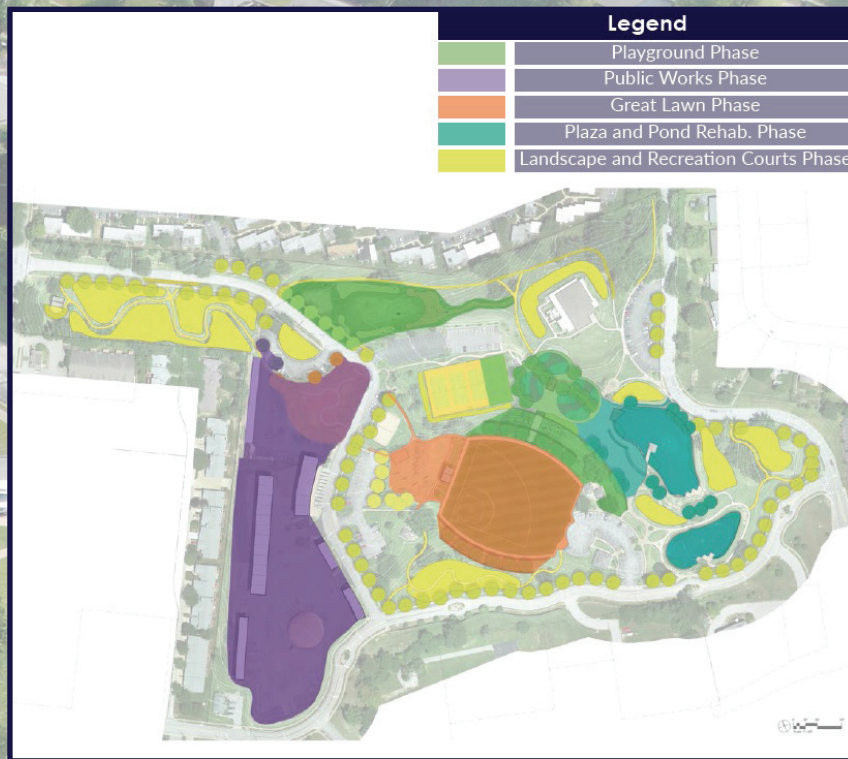

The Vlasis Park Master Plan has been crafted in conjunction with the Lawrence Group. After several rounds of community input and changes from the Board of Aldermen, the Department of Parks and Recreation and city staff, this Master Plan was created with YOU in mind!

We want to make sure this park serves the citizens of Ballwin now and well into the future. The Master Plan is a guide to help ensure the space will be maximized for full usage for everyone who wants to enjoy it.

The plan is to redo the park in phases over the next ten years, pending available funding. There are 5 phases (not necessarily in this order):

- Playground
- Public Works
- Great Lawn
- Plaza and Pond Rehabilitation
- Landscape and Recreation Courts

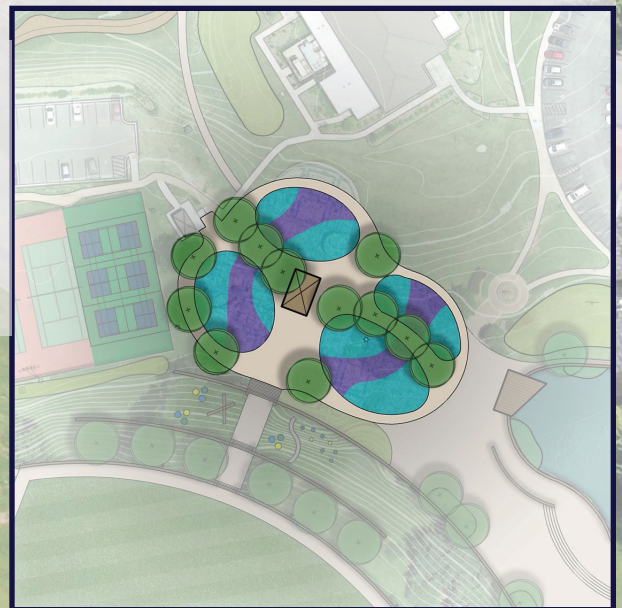

The central playground is also being transformed. A central staircase and retaining walls will provide links across the different areas of the park. The playground will be updated with new play structures, a splash pad, pavilions for shade, play stages and elevated play.

New greenspace will also be put in around Vlasik Park, including a butterfly garden with local flora and fauna.

This plan has been approved by the Board of Aldermen. It will take some time before any construction or changes will be made to the park, as projects need to be bid out.

This Master Plan is to help guide the direction of the park in the future, and as such, changes could be made as we reach different phases of construction. The City of Ballwin is also in the process of applying for grants to help pay for the park.

Fiber Internet

Two companies have begun installing fiber internet in several places. This will bring faster internet to several parts of Ballwin.

AT&T and i3 have both received right of way excavation permits to do the work. They're required to repair the City's property once the work is completed. The work is happening on the City's property, the right of way (next to the road). There also may be some work in existing utility easements on private property.

If you have questions about installation near your property, reach out to the companies at the numbers below:

i3: 877-976-0711 or email at info@i3broadband.com

AT&T: 314-544-7688

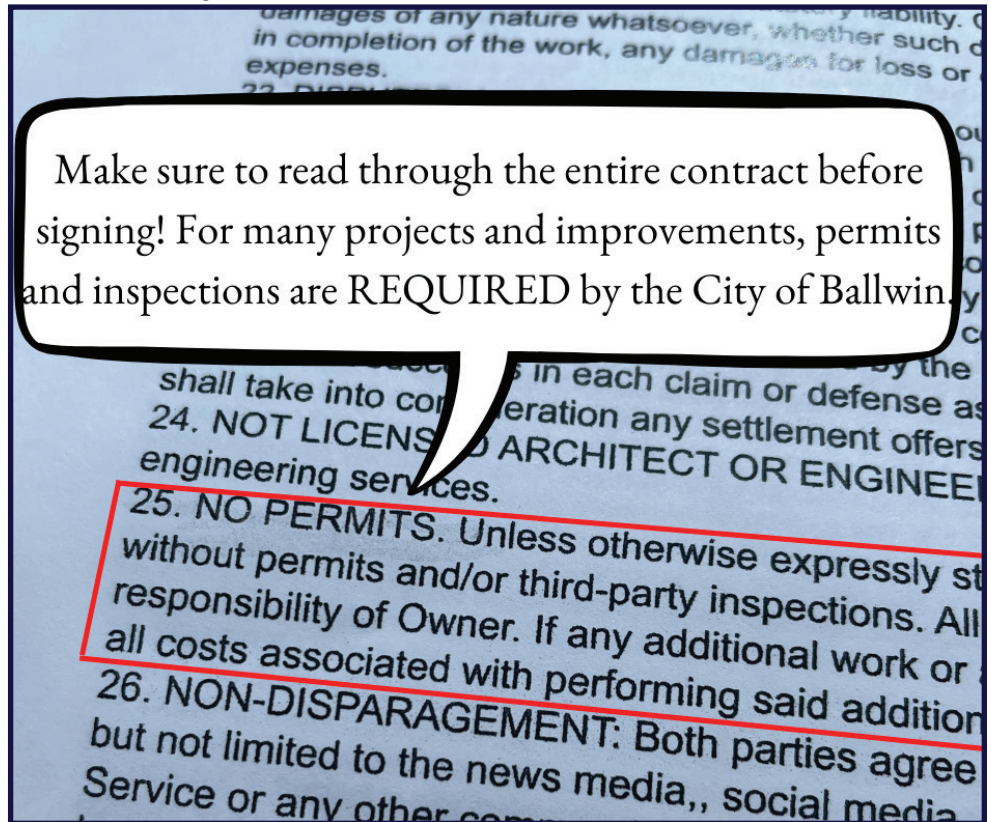

You can also view the plans filed with the City of Ballwin through the Public Works Department.

Code, Inspections & Permits

A word of warning before hiring someone to do contracted work on your house.

Make sure you read through the entire contract before signing. This contract to the right specifically states that the work is being done WITHOUT permits or inspections from third parties. For many projects, that is illegal and could leave you, the homeowner, with a hefty fine and having to redo all of the work correctly at a major cost.

If you have any questions about the validity of a contract, please contact our Code, Inspections and Permits Department at (636) 227-2129.

So what DO you need a permit for?

Building Permits:

- Basement finishes
- Deck repairs or replacements
- Swimming pools
- Hot tubs
- Sheds
- Fences (new or replacement)
- Front porches
- Roof structural repairs/additions
- Pergolas, gazebos
- Retaining walls 4' or taller
- Structural foundation repairs
- Any project with walls added or removed

Electrical Permits:

- Projects with new wiring run on new or existing circuit
- New or replacement service panel
- New wired can or accent lighting
- New wired outlets

Plumbing Permits:

- Shower/tub valves
- New/replacement gas or water piping
- Moving plumbing pipes behind walls
- Tub or shower stall replacement
- Stacks or drainage system
- Ground roughs
- Sewer lateral repairs
- Building sewer repairs
- Water heaters

Mechanical Permits:

- New or replacement a/c or furnace units
- New/replacement duct work
- New/replacement kitchen hood and duct work
- New/replacement vents
- New/replacement boilers
- Vent fans with new venting
- New/replacement dryer ducting

Chief's Corner

Most people see our officers on the road, patrolling or making a traffic stop. Or even directing traffic around an accident. But most people don't actually know what an officer does during their shift. I mean between the times you see them stopping a car, grabbing a drink at the local gas station, and driving through your neighborhood. So, this article will give you a little taste. I am going to describe to you what an officer did during a recent shift. The shift was a weekend night shift (6 pm to 6 am).

Officer Smith (not their real name) is found sitting in the Patrol Room waiting for shift change. It's about 5:30 pm and he is checking his emails while waiting for roll call. After responding to a few emails he checks CARE, the report writing system, to see if he needs to do some follow-up to previous calls he handled. There are none, for now.

Roll call happens and he learns what sector (of the four) he will be handling and any pertinent information from things that happened during the previous shift. After which he inspects his patrol car (radio, rifle, computer, equipment, car camera, body camera, etc).

Officer Smith pulled off the parking lot and received a call for a traffic accident on Manchester Road. As he arrived, he found it was somewhat minor. He got the road cleared and called for a tow truck for one of the now damaged cars. He spent the next 30 minutes writing the accident report.

Back on the road, he patrolled several businesses to make sure the workers and the customers were safe and that there was nothing out of the ordinary going on in the area.

He then drove into a residential area where he found a car on the street with the trunk open. He pulled over to investigate and simply found that the homeowner forgot to close it after hauling in the groceries.

By now it is 10:00 pm when he and another officer get a call for a domestic disturbance. They respond to find that a young couple has been drinking and are engaged in a pretty intense verbal argument (a neighbor called the cops). The officers worked with the couple and helped one of the two go to their parent's house for the night.

More patrolling followed within the neighborhoods in his sector. As the community is getting ready for bed he is looking for anything unusual. He notes several garage doors open, checks them out, and leaves a note for the homeowner of the situation, with a friendly reminder to check the garage door before going to bed in the future.

Now it is 1:15 am and his radio goes off. Officers in a nearby agency attempted to stop a stolen car but it fled from them. He gets the description and heads to the area where it may be heading. It did not come through Ballwin.

At about 1:30 am, Officer Smith gets a call for a fight outside a local bar. He is one of two officers assigned to the call, but other officers head that way to assist. Upon arrival, they are told that both parties in the fight have left the area. Everyone goes back into service and back to patrolling.

At 3:00 am Officer Smith receives a call for a one-car accident on Big Bend near New Ballwin. The car ran off the road and hit a pole. He arrives and gives aid to the driver. He finds the driver is intoxicated and has a minor injury. Officer Smith calls for an ambulance and a tow truck.

The car gets towed while Officer Smith heads to the hospital in the ambulance with the driver. The driver is attended to by the ER staff. Officer Smith then brings the driver back to the Ballwin Police station where he is booked and put in a holdover cell. The rest of his shift, and a couple of hours into his off-time, will be spent report writing.

By 8:00 am Officer Smith is headed home to get some sleep and then spend time with his family.

Welcome to the life of a Ballwin Police Officer.

- Chief Schaeffler

School Year Safety

School Resource Officers Reynolds and Schaper are looking forward to being back in the schools again this year. Officer Reynolds has been the SRO for Selvidge Middle School for the last three years, while Officer Schaper is going on her second year for the elementary schools.

Ballwin is the home to six (6) elementary schools and one middle school. SRO Schaper is excited to see the new kindergarten class, and hearing about everyone's summer trips. SRO Reynolds is entering his last year as an SRO. He is looking forward to seeing the growth and maturity of the students.

Both officers wanted to make sure parents and students know the below Safety Tips for the 2023 school year.

SRO School Safety Tips

1. Slow Down! Be prepared to stop in or near school zones, residential areas, intersections, and crosswalks for school buses and children walking.
2. Parents, please follow the drop off and pick-up maps provided by the schools.
3. Practice safe travel habits. Please utilize seatbelts if you are in a vehicle.
4. If you plan on walking or riding a bike to school, practice the route with your family. Please utilize sidewalks, crosswalks, and helmets (if you are biking).
5. Bring water!

AED Program

The Ballwin Police Department is constantly evaluating the equipment and training that our officers receive to make a positive impact on the Ballwin community. One area that has been found to be an obvious success is our Automated External Defibrillator (AED) program. According to the University of Pennsylvania, sudden cardiac arrest is a major health problem that affects an estimated 500,000 people every year. When a person suffers a cardiac arrest, their chance of survival decreases by 7% to 10% for each minute that passes without defibrillation. Having AEDs readily available increases the chance of survival for those in need. Our department has responded to and used AEDs on sudden cardiac arrest calls for service numerous times.

Thanks to the generous support of the Firehouse Subs Public Safety Foundation, the Ballwin Police Department was awarded \$23,246.25 to purchase additional AEDs. An order has been placed for new AEDs and upon their arrival will be deployed in each Ballwin Police patrol vehicle. This additional equipment provides our Officers with the tools they need to help save their lives. We are incredibly grateful to the Firehouse Subs Public Safety Foundation for their support of our community. First Aid

Ballwin Police Officers go through extensive amounts of training each year.

So far this year officers have spent hours focusing on first aid, trauma kits, Narcan, and CPR. The department was recently approved for a grant, which allowed funding to be spent on new trauma kits.

The trauma kits the officers are carrying could be the difference maker in saving another's life. The same field dressing, gauze,

tourniquets and bandages that were used to help Officer Flamion can be found within these kits.

The officers went through additional training, and for some a refresher, on how to properly use and apply the various life saving items.

Another life saving tool officers now carry is Narcan. With the rise of drug use, and the dangers it can cause, which can be seen across the country, officers did a refresher on Narcan.

In California, there is footage of an officer conducting a traffic stop. The officer observes a white powdery substance, and begins overdosing on the scene. With the quick actions of the supporting officer initiating Narcan, he was able to save the officer's life.

For more information on Narcan, please visit <https://www.narcan.com/>.

Little Free Library

A big thank you to Olivia and Christopher Pieknik for their donation of a Little Free Library in Ferris Park!

Olivia and her husband received the Little Free Library from their neighbors, Randy and Peg Doege, who built a new one in front of their house. They gave the old one to Olivia and Christopher, who fixed it up, painted it and put it back together so

Ballwin residents have a place to share their favorite books with their neighbors and maybe pick up a book or two they've always wanted to read but haven't had the chance to!

Come swing by the bench near the toddler playground at Ferris Park and check it out for yourself!

Know someone with a fall birthday?? Come celebrate at The Pointe!
