RE: Authorization to Sell Equipment

Department/Program: Public Works/ Support

Recommendation: Staff recommends selling a 2006 Chevrolet C7500 on Gov Deals.com.

Explanation: Truck # 2207 is being replaced with a 2019 International. The cab and chassis were bought in 2019 and the bed and hydraulics were postponed for the 2020 Budget. The truck is nearly completed and we expect delivery any day. The truck was delayed due to Viking-Cives not being able to complete the bed and hydraulics due to MODOT State Contract orders.
