

## **Consent Item**

**RE:** Building Systems Cargo Van

**Department/Program:** Parks and Recreation

**Recommendation:**

Move forward as planned in the 2020 budget to purchase a new cargo van.

**Explanation:**

The current van is a 2007 Chevy Cargo Van. This van is listed in poor condition in the Vehicle Condition report. Additionally, this van has been involved in two accidents in the past two years; neither were the fault of city staff.

We have budgeted \$22,000 for the purchase of a replacement Chevy cargo van for the building systems department. The total price for the new Chevy cargo van is \$21,334.

Delivery date is anticipated to be 90 to 120 days.

**Submitted By:** Chris Conway, Director of Parks and Recreation

**Date:** January 22, 2020
