

St. Louis County signed Executive Order No. 13, requiring all restaurants and bars in St. Louis County to institute social distancing measures that can limit the spread of COVID-19. Although no longer offering dine-in services for the time being, we want to remind you many of our restaurants are remaining OPEN. Our businesses are the heart of our community and we encourage you to support them through this difficult time. Things are changing every day, so the information below is subject to change. This list represents our best understanding of the restaurants' current offerings, but we recommend confirming with each business directly. Business owners, if any of the information presented below is incorrect, or if any changes to services occur, please contact Shawn Edghill at sedghill@ballwin.mo.us.
