RE: Street Lights

I would like to relocate three of the pole fixtures from the old government center to replace three Ameren post tops on Seven Trails between Mobil and the new Government Center. Three quotes have been received and acceptance of the low bid from CSE Electric in the amount of \$14,500 is recommended. We are seeking Board approval, by motion, since this project was not budgeted. It is however, consistent with Board direction to reduce our dependency on Ameren for street lighting.

Sincerely,
